LATEST NEWS

New Hopes for West African Farmers

Insufficient coordination and duplication of efforts have often stalled the delivery of quality inputs to West African farmers. With actors engaging one another, there are hopes this could benefit smallholder farmers.

Parboiled Rice Production is Breathing New Life

"In the past, we had to get at least four women to sort a 100 kg-bag, which took all day manually. By comparison, the sorting machine we have installed produces 1.4 metric tons per hour," project beneficiary.
