## iREACH

Innovation Research, Extension and Advisory Coordination Hub  
Pôle de coordination innovation recherche vulgarisation et conseil

### Research extension and advisory coordination hub

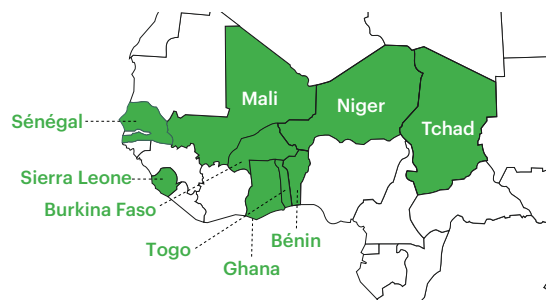

## Objective

Strengthen CORAF to better coordinate, align and integrate research, extension and advisory activities in the region, starting with USAID-funded research activities.

## Implementing countries

Benin, Burkina Faso, Chad, Ghana, Mali, Niger, Senegal, Sierra Leone and Togo

## Key figures in 2023

Setting up three **10**

### agriculture technology parks

Benin, Burkina Faso, Ghana, Mali, Niger, Senegal, Sierra Leone, Chad and Togo

At least **400** cutting-technologies  
and innovations demonstrated in the  
agriculture technology parks

## Main Activities and Results in 2023

**1** 10 ATP set in 9 countries (Benin, Burkina Faso, Ghana, Mali, Niger, Senegal, Sierra Leone, Togo and Chad), during this cropping season with demonstration of > 300 technologies grouped into:

- Agronomic, Agro-Ecological and Farming Systems Innovations
- Genetic Innovations (Varieties, Hybrids and Genotypes) and New Crops
- Post harvest technologies
- Digital Tools, Mechanization and Other Innovations

**2** 38 open field days and guide visited organized to showcase technologies under demonstration in the parks; these activities witnessed the participation of at least 2 500 stakeholders including 36% of women.

**3** several communication tools developed (video, poster, technical leaflets...)

**4** Training in July 2023 in Senegal of about 50 NARS staff in biostatistique and bio-informatique
